OIL CITY, PA.**MILK—PRODUCTION, CARE, AND SALE.**

RULE 27. At least once in each and every year the board of health shall cause an inspection to be made of every source of supply of milk or cream or both, which may be offered for sale or exchange, or sold or exchanged in the city or for use in the city of Oil City. The inspector and the method of inspection shall be selected by the board of health.

RULE 28. The inspector selected by the board shall have the power and authority to inspect all dairies, cows, utensils, appointments, water supply and methods, and anything which may in any way pertain to the proper producing and handling of milk or cream sold or consumed in the city of Oil City. He shall make a report in writing, on blanks provided for that purpose, of each dairy to the board of health as soon as possible after the inspection is made. Said report shall show the number of points allowed for each item appearing on the blanks, together with any recommendations which he may see fit to make in order to improve the methods employed.

If any cow or cows in any dairy do not come up to the standard as regards the health of the herd, the inspector shall specify the exact condition of such cow or cows and if in his opinion a tuberculin test should be made.
